It's stressful yet satisfying! I'm not much of a gamer, but I was able to pick it up and get a double kill!. so um how do I get my special gear? otherwise fantastic gameplay and great graphics, still glad i got it. I was not expecting the guns to fire... nice surprise.. I actually really enjoy this game. Very calming (unless you \u2665\u2665\u2665\u2665ing have to stop like 3 foxes from eating your pig men) and gots a soundtrack to kick too. I got half of the achievements the first time I played. Maybe it was glitch. The game gets some updates with fixes and even more music everytime.

Buy it if you enjoy dogs or herding. If you dont you should they're great cultures. How well you do with this one is going to be highly dependant on how close you are to the target audience. The game itself is very simple, a short series of 'click/tap to complete' actions with very basic animation and a single set of three division problems using scientific notation being the sole puzzle. Sat here as an adult it reminded me of the kind of touch screen display sections I remember seeing in the childrens galleries at science museums and was a twenty minute curiosity at best.

If you've a child of the right age with a bit of a 'wow!' about space then this might be a suitable quick distraction (though I think they'd get on better with the ipad version). If you're an adult who wants to play with rovers on Mars, I'd reccomend 'Take On Mars' from the early access section.

And if you're looking for more fun with text to speech? Wait for the future online release as there is nothing here to sate your JOHN MADDEN JOHN MADDEN AEIOU related needs :).

For an early access Management V Simulation game, Store Manager: Cellular Edition really has potential. I accuse players that have given it a negative review of overlooking the fact that it's not only early access, but also that it **just came out. I played it for about an hour so far and if you're into Simulation V Management games, I'd definitely recommend buying it. \$V10. This is horrible.. Wow, this is one weird game. But so is life. I mean weird. And maybe a game. Who knows?**

So at the top of this window, it shows that I've played this game for 9.1 hours, 9.2 hours on record, so basically, that's it.

I find myself wondering if other people experience more or less time? Does everyone get 9.1 hours of game play?

Does this game have replay value? I don't know. I'm not sure I played this game to begin with. I feel like it played me.

Or I played myself?

The game with all the fixin's is like \$5. That's a cup of coffee. Try to find an experience that lasts 9.1 hours for \$5. Maybe you could rent Sixth Sense, watch it all the way through, see the twist ending, then go back and watch it again, this time, knowing about the twist?

But Sixth Sense had a budget of \$40 million. This game, I'm hoping, did not have that budget.

But it did have Jon Pertwee, the third Doctor in Doctor Who, so it has that going for it.

Did I mention it's cheap? \$5!

This game originally came out in 1984. This is likely before some of you were born. So there, fake nostalgia. You get to understand how your parents, or grandparents, used to spend their time when they weren't outside playing and scraping their knees walking in the forest. We did that once.

Or maybe you grew up in the 80's, and you had a Commodore 64, or the ZX Spectrum? Real nostalgia.

Or maybe you never grew up at all? And you're just haunting this page, looking for a way to escape purgatory?

This game is based loosely on "The Seven Ages Of Man" from Shakespeare's play "As You Like it."

You will be shocked at the juxtaposition of fantastic voice acting, a real children's choir, fun music, weird game-play, and some of the most authentically retro graphics you've ever experienced.

Don't bother buying this game if you have a history of photogenic seizures (those caused by light). You may not have a good time. I mean, some games just put that seizure warning up because they don't want to get sued? It's like at least one part of this game was designed by a medical professional to induce seizures. Otherwise, you'll be fine.

I mean look at our country right now. (If you live in the U.S., but this works for most countries out there, right?) This game couldn't possibly be worse than what you're experiencing in the real world. Right?

In the end, overall, I'd say you should buy this game. It will add to your collection. Sad that they didn't add achievements to this game. It would have been easy. If you play all the way through, you get an achievement. If you play it through a second time, you get another achievement. Maybe just have ten achievements for playing through each time?

I don't know how well I did. I don't know how to play this game. I'm not sure anything I did had any impact on the outcome of the game.

And I'm okay with that.. Luckily it was only 74 cents. WORST GAME I HAVE EVER PLAYED!!!!!!!! Do not even bother contributing to the failure that made this. People like him/them make me sick to my stomach. I mean I create\u2665\u2665\u2665\u2665\u2665daily, but you don't see me trying to sell it. Carlo D'Apostoli remember

this name and never support it. He deserves nothing but shame and a cardboard box. Buy it and see for yourself, but remember you are part of the problem if you read this and buy it.. This is one of the most fun games ever. Everyone usually starts with drawing\u2665\u2665\u2665\u2665\u2665\u2665all over the gallery, but when you start a new one and actually try to make decent looking garbage, it suddenly becomes addicting and when you finish your gallery, it's probably one of the best feelings ever. Other than a 1v5 ace in csgo.. The game does not work since Yosemite (1.5 year) and no answers from 11bits studio !

I won't buy any 11bits studio games anymore !. Very good spots game. This game is AMAZING! I've paid \$10.00 for games that didn't give me as much joy or satisfaction as this little \$2.99 game (and I paid 89 cents on sale too). You have to stick with it, the first 20 or 25 levels are really simplistic but that's necessary because the game is teaching you the basics. Then it gets HARD, fast, and the real thrill is going up against mazes created by other players!

Could easily play this for hours without getting bored.. Is this Crysis?
